Frequently Asked Questions regarding TWIST in the Game

1. **What is the twist?**

    Analyze This' start-up receives new data for previously unaccounted for citizens but with few metrics missing.

2. **Is twist dataset the complete final dataset?**

    No, twist dataset is not the entire final dataset but an additional part of the final dataset already available on the website. The twist dataset has to be appended with the final dataset provided on the website in order to get the entire final dataset.

    (# of rows in final dataset 20,978
    # of rows in twist dataset 3,056
    Hence, # of rows in dataset to be uploaded for final evaluation 24,034)

3. **How is the twist dataset related to leader board submissions?**

    The twist dataset has **NO RELEVANCE** to the leader board submissions.

4. **Do we need to submit the twist dataset along with the final dataset for final submissions?**

    The final CSV file uploaded should have all observations from both the twist dataset as well as final dataset.

    (# of rows in final dataset 20,978
    # of rows in twist dataset 3,056
    Hence, # of rows in dataset to be uploaded for final evaluation 24,034)

    NOTE: *Please ensure that citizen ids are sorted in **ascending** order.*
